

CLOUD ACCOUNTING

Cloud Accounting is a platform, making data and software accessible online anytime, anywhere, from any device.

BENEFITS FOR YOUR BUSINESS

Flexible Access

Clear overview of your current financial position, in real-time

Automation of business processes

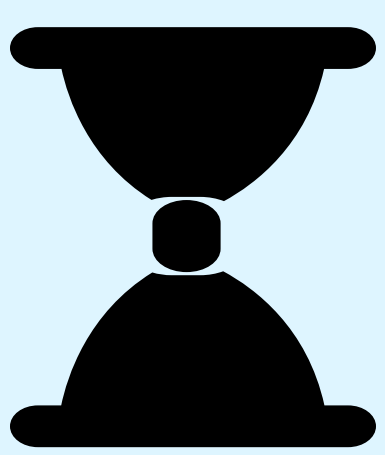

Automatic Updates

Real time data and financial information reports

Multi-user access for easy online collaboration

HOPSCOTCH ACHIEVEMENTS USING CLOUD TECHNOLOGY

Reducing weekly payroll time from all day to less than 1 hour

Saving NFP clients up to \$80,000 per annum

Cutting invoicing time from 6 days to 1 day

IMPACT OF CLOUD TECHNOLOGY ON BUSINESS OPERATIONS

40%
OF BUSINESSES
says software contributes directly to their growth*

4/5
BUSINESSES
described accounting software as critical to their operations.*

'Cloud computing will be biggest-impact technology over the next five years'

- Microsoft Australia*

IS IT SECURE?

Cloud-based software companies ensure that the security and privacy of data about you and your organisation is always airtight. Connect to any internet source, authentication and encryption log in and if you invite users to view your data, you can control the level of access. ^
